08:30 to 12:00**

Registration for non-members is \$125.

OKAMA members attend free.

Learn more and register online:

www.okama.org/events

Time well spent.

Tap into the knowledge and experience of our presenters to get useful information you'll apply immediately. Leverage this opportunity to learn directly from experts working to improve EMS in Oklahoma.

Conference Sponsor

PCG helps primarily public sector health, education, and human services organizations make measurable improvements to their performance and processes.

FTOs, QA, and Developing a Plan

08:30 to 10:00 | Tim Nowak

Can your Field Training Officers do more than onboard new employees? How about quality assurance, employee engagement, and staff retention? Your FTOs can do all this and serve as best practice examples to internal and external stakeholders. The key to expanding their value is developing a strong plan at the outset.

As an experienced EMS clinician, educator, administrator, and consultant working for Public Consulting Group (PCG) with its Public Safety Consulting Services team, Tim Nowak has worked in urban, suburban, rural, and hospital

systems. Serving in a number of roles, Tim innovates to improve the EMS profession and industry. Tim has published more than 200 articles on various publication platforms, posted over 100 hours of continued education available online, and is an active participant on EMS-related committees and boards throughout the industry.

OKAMA Legislative Report—2022 and Beyond

10:00 to 11:00 | Greg Reid

Greg will review the association's work in 2021, including the local, state, and national challenges and issues facing us now and in the new year. As always, the key to success is personal involvement with our government and oversight

representatives. Greg will show you what you can do for EMS in Oklahoma.

Vendor Spotlight

11:00 to 12:00

Catch-up on what's new in the products and services supplied by our vendor members. Their support is important to OKAMA, and their contribution makes a difference in the quality of ambulance services throughout the state.
